Allowable Subject Matter

3. Claims 1-5 are allowable, once the Applicant makes the corrections as indicated in the Examiner's Amendment.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 4, and 5, the prior art to Schein (6388714) discloses requesting the user's zip code and billing information in order to provide a program schedule specific to the user's geographical location. The prior art to Shimazu (6721536) discloses storing a table which links addresses with its corresponding longitudinal and latitudinal information. The prior art to Alperovich (6175741) displaying business card information of businesses closest to the user's geographical location. The prior art of record fails to disclose wherein upon registration of the second subsidiary information, a list of telephone numbers is presented to a user in an order of increasing trunk code numbers, a first telephone number of the list having a same trunk code as that of the user's territory. Additionally, it is the Examiner's opinion that with the art of record, it would not be an obvious design choice modification to incorporate the

Art Unit: 2421

limitations as taught by the prior art of record into a single embodiment with the newly added limitation.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
